ENTERPRISE SOFTWARE INITIATIVE

Best Practices and Lessons Learned for Commercial Software Acquisition

Date: Tues., Feb. 11 Time: 9:00 – 10:30 Room: 8

Second Session: Time: 1:45 – 3:15 Room: 7A

The Government spends billions of dollars every year on commercial software and related services. The DoD Enterprise Software Initiative (DoD ESI) and DON CIO have collaborated to develop tools, templates, and training to help IT buyers/requirements personnel license and manage software efficiently, beginning with negotiating the right terms and conditions for the end user license agreement (EULA). This session will share best practices and tips to help IT buyers make advantageous agreements with commercial software publishers and resellers.

Speakers: Floyd Groce (DON CIO), Suzi Ellison (SSC Pacific), Dee Wardle (DON CIO Support)

SPECTRUM

Maintaining Operational Effectiveness in a Future of Spectrum Sharing

Date: Tues., Feb. 11 Time: 9:00 – 4:00 Room: 9

This session will explore the DON's electromagnetic spectrum interdependencies and discuss ways to maximize our operational readiness while incorporating spectral efficiency. The electromagnetic spectrum is an increasingly scarce resource. From technical, economical and scheduling perspectives, Spectrum Sharing is emerging as the solution of choice. Naval forces' ability to support diverse operations is dependent on access to the electromagnetic spectrum for communications, navigation, targeting, sensing, tracking, jamming, and more. . The speakers will address a variety of spectrum sharing topics, including how sharing may impact operations and how the Navy can maintain operational effectiveness while sharing critical spectrum.

Speakers: Tom Kidd (DON CIO), Mark Johnson, (OPNAV/N2N6F1221), Brian Farmer (DON CIO Support), Matthew Grenis (E3), Bob Marcial (Joint Frequency Management Office – Pacific)
