

DEPARTMENT OF THE NAVY
VICE CHIEF OF NAVAL OPERATIONS
2000 NAVY PENTAGON
WASHINGTON DC 20350-2000

IN REPLY REFER TO
5214
Ser N09/1U103029
10 Jun 11

From: Vice Chief of Naval Operations

Subj: APPOINTMENT OF DEPARTMENT OF THE NAVY DEPUTY CHIEF
INFORMATION OFFICER (DDCIO) AS FUNCTIONAL AREA MANAGER
AUTHORITY FOR NAVY

Ref: (a) SECNAVINST 5230.14
(b) USN memo of 3 Dec 10

Encl: (1) DDCIO Information Officer for Roles and
Responsibilities

1. I appoint the DDCIO as the single Functional Area Manager (FAM) authority for Navy. The roles, responsibilities and relationships of the DDCIO to the FAM Leads and Echelon II Command Information Officers (CIO's) in this capacity are provided in enclosure (1).
2. To maximize Navy's effectiveness as a single integrated team, per reference (a), the Secretary of the Navy designated the Deputy Chief of Naval Operations for Information Dominance (N2/N6) to serve in an additional capacity as DDCIO. A key role for the DDCIO is to strengthen, align and integrate Information Technology Portfolio Management (ITPM) efforts throughout the chain of command via FAM Leads and Echelon II CIO's.
3. Effective and authoritative ITPM implementation is imperative for Navy to meet long-term objectives specified in reference (b). This designation of DDCIO as the single FAM authority for Navy provides the governance and authorities to meet these objectives.

J. W. GREENERT
Admiral, U.S. Navy

DDCIO NAVY FAM AUTHORITY ROLES AND RESPONSIBILITIES

The DDCIO (Navy) is assigned as:

- The Lead for Navy IT Portfolio Management (IT PFM) and the 17 designated Navy FAM's.
- The Lead for enforcing IT governance for portfolio management including requirements for all categories of functional area management, (i.e., personnel, logistics, enterprise services, intelligence).
 - Align with DoD and SECNAV IT PFM guidance
 - Reinforce Clinger-Cohen Act (Title 40)
 - Establish FAM vision, goals, desired capabilities and outcome measures of effectiveness.
 - Ensure IT resources are managed by each Resource Sponsor in an efficient and effective manner.
 - Develop and issue a core set of criteria for the portfolio rationalization, selection and evaluations of potential IT investments.
 - Instruct the FAMs and Echelon II CIO's to ensure that the best mix of investments are selected and make recommendations to terminate, sustain, transform or initiate programs through the DON decisional processes (i.e., PPBE, POM PR's, Navy Information Dominance Approval System (NAV IDAS)).
 - Support development, implementation, and maintenance of a standard Navy Enterprise Architecture.
 - Ensure IT inventory information has been appropriately registered in the DON authorized data repositories.
- The Service lead for managing the Navy's IT PFM Warfighter and Enterprise Information Environment Mission Area requirements.
- The signature approval authority for all Navy IT inventory, including systems, applications, networks, servers, licenses and devices.
- The lead integrator for establishing a single enterprise wide IT procurement approval process.
- The adjudication authority for IT requirements, concerns and issues brought forward by Resource Sponsors, FAM Leads or the Echelon II CIO's for resolution.
